Buy CHAB MOOSE JAW *To Sell Saskatchewan* 5000 WATTS 800 K.C

December 29, 1955.

Mr. Ron B. Schiller,
National Radio Club,
30 Park Avenue,
Avenel, New Jersey, U. S. A.

Thank you for your letter of December 23rd Mr. Schiller....

We are pleased to confirm your reception of Radio Station CHAB. It was quite a night that evening as at first they thought our City was going to be in danger but fortunately with the temperatures so far below Zero the City Fire Department were able to stop the explosions from spreading.

You ask where Moose Jaw got its name. According to legend, in the early days a broken cart wheel was mended with the Jaw of a Mooseand from this came the name Moose Jaw. The population of Moose Jaw today is around 30,000.

Yours sincerely,

Sid Boyling,
General Manager.
